

ALL SAINTS GREEN STUDENT RESIDENCES NORWICH CITY CENTRE

Client: Alumno Developments Limited

Value: £12 million

Date: 2013-2015

Status: Complete

Awards:

2016 Scottish Design Awards - Residential (Highly Commended)

2016 Norfolk Association of Architects - Craft Award

2015 Scottish Design Awards - Future Building (Nomination)

This will be the first off-campus purpose built student residences in the city centre of Norwich.

The proposal for our client, Alumno Developments Ltd provides 228 en-suite study bedrooms including a small amount of studios. The bedrooms are organised as cluster flats of between five beds and 11 beds per cluster with a shared kitchen, living and dining room in each flat. The ground floor of the building features a large double height entrance lobby which allows access through to the private courtyard gardens where the access to the common facilities such as common room, laundry and cycle storage are accessed.

The top of the building features a reading room with mezzanine for quiet study and amazing roof top views over the city. This 'object' appears as a glass lantern that sits on top of the building.
